

CHILDREN'S RIGHTS

Children have a right
to our protection.

Children have a right
to be heard.

Children have a right
to information.

Children have a right
to talk with us about anything.

Children have a right
to tell secrets that worry them.

Children have a right
to trust their feelings.

Children have a right
to be taken seriously.

Children have a right
to say no to touching that worries them.

Children have a right
to express anger.

Children have a right
to the ownership of their bodies.

Children have a right
to feel good about themselves.

Children have a right
to feel safe.
